

RS-232

Wireless

Feature:

- Economical low-cost model
- RS232 interface
- Easy to setup and use
- Works without an operating system
- Power supply: 5VDC
- Parameters configurable via serial port
- Unlicensed open frequency

Specifications

Model	RS-232 Wireless
Interface	RS-232
Signals supported	TX and RX
Communication mode	Half-duplex
RF power	50mW/ 17dBm
Buffer	128bytes
Receiving current	less than 20mA
Transmitting current	max 40mA
Frequency range	429.00 ~ 433.30MHz
Working temperature	-35°C ~ 75°C (31~167 F)
Antenna	50 ohm SMA
