

MK-E1005 SERIES

Hybrid Scale

Hybrid MK-E1005 gives you the tools to improve profitability and efficiency in many weight-based processes across the food, logistics, mining, waste, metals and engineering industries.

- Elegant Design

- Accurate results – every time

- MK-E1005 addresses most weighing needs

- Unbeatable value for money

- Fast and simple to use

- Range of built-in functions

Wall mount use

MK-E1005

Hybrid

Features:

- Improve profitability: Hybrid MK-E1005 gives you the tools to improve profitability and efficiency in many weight-based processes across the food, logistics, mining, waste, metals and engineering industries.
- Accurate results – every time: Results are un mistake able in any conditions. The red LED display also guarantees simpler, more accurate check weighing.
- MK-E1005 addresses most weighing needs. The serial port allows connectivity to PCs, printers, external display and other serial devices.
- Unbeatable value for money: Economical to own and operate, it provides features and functionality beyond what you'd expect of an entry-level indicator.
- Wall mount bracket indicator can also use as wall display.
- Fast and simple to use: Hybrid MK-E1005 offers maximum ease of use
- Configurable trips: Three configurable weight-based trips give you the flexibility to carry out many basic process control routines.
- Range of built-in functions: You can use the indicator to manage a wide range of tasks including piece weighing, check weighing, counting, totalising and peak hold measurement, also for HI ok Low function.
- Less downtime – lower costs: Bench scale MK-E1005 allows rapid installation and configuration, customize weighing unit, easy for conversion the weighing unit.
- High Resolution Load Cell with overload protection
- Low battery indication for remind the operator to charge the battery when needed
- Rechargeable battery in this indicator is useful for use anywhere and anytime without need to replace the battery all the time.
- Optional: > Isolated 4-20mA Analog Current Output
 - > 2/4 set point
 - > Clock function
 - > RS-232 Modbus data output
 - > External Printer
 - > RS-485
 - > USB interface for save the weighing data

Specifications:

Model	MK-E1005 Hybrid			
Capacity	150kg	300kg	500kg	600kg
Division	50g	0.1kg	0.2kg	0.2kg
Pan size	48x106			
Height	108			
Product weight	38,6 kg (including indicator)			
Packing carton (cm)	89x(L)x59(W)x21(H)
